FOR IMMEDIATE RELEASE

Connexion Technologies' Presence in Florida Helps it Venture out West

Cary, North Carolina (September 19, 2007) – Connexion Technologies will power four more communities with its fiber-optic networks...three out west and one in Florida. The properties are: Saguaro Desert, a single-family community in Yuma, AZ (Hall's Construction); Sierra Montana, a town home community in Yuma, AZ (Kammann Developments); The Meridian, condominium residences in Las Vegas, NV; and Landmark at Doral, a mixed-use community in Doral, FL (EB Developers).

These most recent partnerships translate into almost 6,000 additional units that Connexion Technologies will connect with fiber-optic technology. The company has helped the southeast, particularly Florida, lead the nation in Fiber to the Home (FTTH) deployment. Now, it is taking its state-of-the-art networks westward.

"With many states following in Florida's lead, we now find ourselves out West," said Jamie Cnossen, National Field Marketing Manager for Connexion Technologies.

Connexion Technologies builds and operates fiber-optic networks for developers coast to coast. This allows entertainment and communication services to be delivered at the speed of light. Connexion funds the projects and designs, installs and operates the networks itself.

"Florida continues to take advantage of fiber-optic technology," said Glen Lang, CEO of Connexion Technologies. "As fiber becomes more and more established in Florida, we're seeing other states are starting to follow in its footsteps.

About Connexion Technologies

Connexion Technologies, the country's premier fiber-optic amenity company, builds and operates state-of-the-art entertainment and communication networks in single family, multi family, high rise, resort and hospitality properties from coast to coast. Its award-winning, blazing fast, Fiber to the Home (FTTH) and Fiber to the Unit/Premise (FTTU/P) networks have virtually unlimited bandwidth and are "future-ready" to handle emerging technologies. Connexion aligns its networks with leading service providers, who supply the best in television, voice, Internet, and security monitoring services. Connexion also offers properties a suite of comprehensive entertainment and communication technology solutions. From Video-on-Demand (VoD), in-room and in-unit monitoring and management to remote energy control, customized television channel content and other current and future offerings, Connexion Technologies creates *A Better Connection*SM with its one-source technology solution. The company (formerly known as Capitol Infrastructure), based in Cary, North Carolina, was established in 2002 and has various office locations around the country.
