

FOR IMMEDIATE RELEASE

Wyndham and Wyndham Gates to Offer Cutting-Edge Technology to Residents

Two of Alabama's finest family communities partner with industry leader, Connexion Technologies.

Cary, North Carolina, March 9, 2009 – Wyndham and Wyndham Gates, two adjacent communities in Opelika, Alabama will soon bring their residents the most advanced entertainment and communications services available in the area. This is possible through a partnership with Connexion Technologies, the nation's premier fiber-optic amenity company, who will build a Fiber to the Home (FTTH) network throughout the community.

A fiber-optic network can accommodate future needs through its unlimited bandwidth, one of the many benefits of this emerging technology. Fiber is more reliable than coaxial cable because it does not conduct electricity, resulting in fewer outages and greater resident satisfaction.

“We’re thrilled with the Connexion Technologies partnership,” said Lee Danielly of Knight Development, Inc., owner of both properties. “Many of our residents are first time homebuyers, and we’re proud to offer them homes with this advanced network. It enables us to bring truly cutting-edge technology to affordable homes.”

In the coming weeks, these properties’ networks will support a vast array of affordable services including ultra-high speed Internet connections, more than 200 digital channels of entertainment and multi-function telephone service.

About Connexion Technologies

Connexion Technologies is the country's premier fiber-optic amenity company. It invests its capital to design, build and operate Fiber to the Home (FTTH) networks in single family, multi family, high rise, resort and hospitality properties nationwide. Its award-winning, state-of-the-art networks deliver an unsurpassed technology experience and enable developers to sell units at a faster velocity. By aligning its partners with leading service providers, Connexion Technologies offers the best in enhanced television, telephone, Internet, and security monitoring services. By offering a complete suite of entertainment and communication applications at the speed of light, Connexion Technologies creates *A Better Connection*SM with its one-source technology solution. The company is based in Cary, North Carolina. It was established in 2002 and is located in 17 offices throughout the country. For more information, visit www.connexiontechnologies.net.

About Geordan Communities

With just shy of 1,000 homes at its completion, Geordan Communities, Wyndham and Wyndham Gates offer their residents a premium lifestyle at very low prices. Home shoppers will quickly notice the high-efficiency materials and appliances that keep utility costs low. Plus, the incorporation of value-engineered homes that maximize usable square footage each homeowner can truly put to use. Wyndham and Wyndham Gates will also include a Geordan Lifestyle Center that gives every resident a unique partnership with many local and national companies through an exclusive concierge service. In addition to this fantastic lifestyle approach, these swim / tennis communities offer cutting edge technologies in homes loaded with space while providing incredible value for today's homebuyer.
