

FOR IMMEDIATE RELEASE

The Fairways of Champions Circle to Enjoy Fiber-Optic Enabled Services

Master-planned Golfing Community Partners with Industry Leader, Connexion Technologies

Cary, North Carolina (April 8, 2009) – The Fairways of Champions Circle, a golfing community located in Fort Worth, T.X., will soon bring its residents the most advanced entertainment and communication services available in the area. This is possible through a partnership with Connexion Technologies, one of the nation's premier fiber-optic amenity companies.

A fiber-optic network can accommodate future entertainment and communications needs through its unlimited bandwidth capacity, which is just one of the many benefits of this emerging technology. Fiber optic wiring is more reliable than coaxial cable because it does not conduct electricity, resulting in fewer outages and greater resident satisfaction.

“We are very excited about our new relationship with Connexion Technologies,” said Casey McGinnis, of McGinnis Development, developer of The Fairways of Champions Circle. “We believe that by entering into this agreement with Connexion Technologies, we have ensured that our home owners will have access to the latest in technology at an exceptional value.”

The Fairway's network will support a vast array of services including ultra-high speed Internet connections, more than 200 digital channels of entertainment and multi-function telephone service.

The Fairways of Champions Circle is a 189 acre master planned golf course community located at Hwy 114 and I35W in the City of Fort Worth. The 189 residential tract of land is part and parcel to the 900 acre Champions Circle development and will include more than 700 homes.

At its completion in 2013, The Champions Circle development includes the Marriott at Champions Circle Hotel & Resort, The Golf Club at Champions Circle and The Champions Circle Commercial Center.
