Connexion Technologies Breaks Top 100 of the Inc. 500

Connexion Ranks as No. 84 Overall and No. 4 in the Telecommunications Industry.

Cary, North Carolina, – August 13, 2009 -- Inc. magazine ranked Connexion Technologies as number 84 on its 28th annual Inc. 500, an exclusive ranking of the nation's fastest-growing private companies. The magazine also ranked Connexion as number four among telecommunications companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. Companies such as Microsoft, Zappos, Intuit, GoDaddy, Under Armour, Jamba Juice, American Apparel, Oracle, and hundreds of other powerhouses gained early exposure as members of the Inc. 500.

“If you want to know which companies are going to change the world, look at the Inc. 500,” said Inc. editor Jane Berentson. “These are the most dynamic, fast-growth companies in the nation, the ones finding innovative solutions to problems, creating smart systems, and inventing products we soon discover we can't live without. The Inc. 500 list is Inc. magazine's tribute to American business ingenuity and ambition.”

Connexion Technologies has grown tremendously in the past three years, enhancing its network to increase bandwidth as well as expanding to reach new areas of the housing market, including multi-family, existing properties and manufactured housing.

The 2009 Inc. 500, unveiled in the September issue of Inc. magazine (available on newsstands August 17 to November 15) and on Inc.com, reported aggregate revenue of \$18.4 billion—up significantly from last year's \$13.7 billion—and a median three-year growth rate of 880.5 percent.

The companies on this year's list are also responsible for creating more than 55,000 jobs since their founding, making the Inc. 500 perhaps the best example of the impact private, fast-growing companies can have on the overall U.S. economy. The largest company on the list, flat-panel-TV maker Vizio, broke the \$2 billion revenue mark. Complete results of the Inc. 500, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on Inc.com.
