## **Connexion Technologies Secures Three More Properties in Alabama, Mississippi and Georgia**

Cary, North Carolina (June 4, 2007) – Connexion Technologies will build its state-of-the-art fiber networks for three new developments: Sandy Creek Farms, an upscale neighborhood development in Gulf Shores, AL (Joe Raley Builders); Tunica National, a master-planned community in northern Mississippi (Dunn and Harrell Development, LLC); and Overlook at Camp Creek, a single-family home community on the outskirts of Atlanta, GA (Trey Robinson Homes).

“Bandwidth requirements for communications are rising dramatically,” said Glen Lang, CEO of Connexion Technologies. “The cable and phone company networks will be replaced over the next decade. Only fiber optics can support the new requirements of residential consumers.”

Connexion invests in properties by designing, installing and operating fiber-optic networks using its own capital. Fiber-optic technology allows the convergence of entertainment and communication services to be delivered at the speed of light. Its unlimited bandwidth can handle emerging technologies as they come to market. The final result is not only a better connection but also a more reliable means to deliver technology.

“Within five years, fiber-connected communities will be worth \$5,000 more than copper-connected lots,” said Lang. “Developers should not want to install yesterday’s copper infrastructure in tomorrow’s communities. Fiber is a must for developers who are constructing new communities.”

### **About Connexion Technologies**

Connexion Technologies, the country’s premier fiber-optic amenity company, builds and operates state-of-the-art entertainment and communication networks in single family, multi family, high rise, resort and hospitality properties from coast to coast. Its award-winning, blazingly fast, Fiber to the Home (FTTH) and Fiber to the Unit/Premise (FTTU/P) networks have virtually unlimited bandwidth and are “future-ready” to handle emerging technologies. Connexion aligns its networks with leading service providers, who supply the best in television, voice, Internet, and security monitoring services. Connexion also offers properties a suite of comprehensive entertainment and communication technology solutions. From Video-on-Demand (VoD), in-room and in-unit monitoring and management to remote energy control, customized television channel content and other current and future offerings, Connexion Technologies creates *A Better Connection*<sup>SM</sup> with its one-source technology solution. The company (formerly known as Capitol Infrastructure), based in Cary, North Carolina, was established in 2002 and has various office locations around the country.
