## **Partners of Connexion Technologies Win Cornerstone Award from *Broadband Properties Magazine***

Cary, North Carolina (September 17, 2007) – Two developments powered by Connexion Technologies’ fiber-optic networks received Cornerstone Awards at the Broadband Properties Summit, held last week in Dallas, TX. The honorees were Kellswater Bridge Development, a single-family community outside of Charlotte, NC and Mosaic on Hermann Park, the largest condominium structure in Houston, TX.

Since 2004, the Cornerstone Awards, presented annually, have recognized the successful deployment of Fiber to the Premise (FTTP) networks in a variety of property types. A distinguished committee of industry leaders, analysts and writers selected the award-recipients.

“Each year, we acknowledge the very best organizations in advancing outstanding Fiber-to-the-Premise networks and ultimately providing broadband to a wider audience,” said Steven Ross, editor-in-chief, *Broadband Properties Magazine*. “We are proud to recognize Kellswater Bridge Development and Mosaic on Hermann Park and hope their programs will become a model for many other organizations in the US and abroad.”

Kellswater Bridge Development won for “Best Marketing of Fiber-to-the-Home in a Connected Community.” Mosaic on Hermann Park received an award for “Most Exciting Fiber-Optic Condo Project of the Year.” Although not every reason was mentioned in the brief ceremony, CEO of *Broadband Properties*, Scott DeGarmo, said that “economic impact was a factor in both decisions.”

Both developments partnered with Connexion Technologies to deploy fiber throughout their properties. Connexion Technologies builds and operates fiber-optic networks for developers coast to coast, allowing entertainment and communication services to be delivered at the speed of light. Connexion Technologies funds the projects and designs, installs and operates the networks itself.

“It’s nice to see the success stories of our developer partners who have trusted us with their fiber-optic needs,” said Glen Lang, CEO of Connexion Technologies. “We’re very proud of the awards that Kellswater Bridge and Mosaic on Hermann Park received.”

### **About Connexion Technologies**

Connexion Technologies, the country’s premier fiber-optic amenity company, builds and operates state-of-the-art entertainment and communication networks in single family, multi family, high rise, resort and hospitality properties from coast to coast. Its award-winning, blazing fast, Fiber to the Home (FTTH) and Fiber to the Unit/Premise (FTTU/P) networks have virtually unlimited bandwidth and are “future-ready” to handle emerging technologies. Connexion aligns its networks with leading service providers, who supply the best in television, voice, Internet, and security monitoring services. Connexion also offers properties a suite of comprehensive entertainment and communication technology solutions. From Video-on-Demand (VoD), in-room

and in-unit monitoring and management to remote energy control, customized television channel content and other current and future offerings, Connexion Technologies creates *A Better Connection*<sup>SM</sup> with its one-source technology solution. The company (formerly known as Capitol Infrastructure), based in Cary, North Carolina, was established in 2002 and has various office locations around the country.
