PRESS RELEASE

Connexion Technologies Wins Prestigious Award in Home Building Industry

Cary, North Carolina (February 15, 2007) – Connexion Technologies has just taken home the 2007 Innovative Housing Technology Award (IHTA) for the best “Telecommunications Service.” *TecHome Builder* magazine hosted the prestigious award ceremony which was presented by the National Association of Home Builders (NAHBs) at its International Builders Show (IBS).

Connexion Technologies builds and operates fiber-optic networks for developers coast to coast. This allows entertainment and communication services to be delivered at the speed of light. Connexion designs, installs and operates the optical networks using its own capital.

Two developments powered by Connexion Technologies’ fiber-optic networks received awards at the ceremony, as well. Rice Hope of Savannah, GA accepted the “Excellent Connected Community” award and Kellswater Bridge Development of Charlotte, NC accepted the “Effective Merchandising and Marketing” award.

“We are honored to be recognized as a telecommunications leader in the home building industry,” said Glen Lang, CEO of Connexion Technologies. “But it’s also nice to see the success stories of the developers who have trusted us with their fiber-optic needs. So, we’re very proud of the awards that Rice Hope and Kellswater Bridge Development received, as well.”

The IHTAs recognize significant technological advances by product integrators and builders in the housing industry. But they also are intended to inspire leaders of technology to improve livability of homes while making the building process more proficient and cost-effective. Now in their seventh year with more than 100,000 attendees, the IHTAs are considered the most prestigious housing technology awards in the home building industry.

About Connexion Technologies

Connexion Technologies, the country’s premier fiber-optic amenity company, builds and operates state-of-the-art entertainment and communication networks in single family, multi family, high rise, resort and hospitality properties from coast to coast.
